Data Analyst Internship Portfolio

Task 5: Capstone Integration & Portfolio Finalization

Prepared by: Venkat Akhil

Andhra University College of Engineering

Portfolio Overview

Purpose: bring completed internship work together in one organized repository.

Includes task links, deliverables, technical skills, learning reflection, and a walkthrough video.

Task 1 — NGO Research

Research NGOs working in India.

Organize the actual research in a structured spreadsheet or report.

Repository: [ADD TASK 1 LINK]

Task 2 — AI-Powered Analysis

Analyze a social-impact topic.

Document the method, findings, and recommendations.

Repository: [ADD TASK 2 LINK]

Task 3 — Volunteer Opportunities

Compile volunteer opportunities, internships, or fellowships in India.

Use a clear dataset and retain source information.

Repository: [ADD TASK 3 LINK]

Task 4 — Data Analysis Project

Show the actual project, dataset, code, analysis, and results.

Repository: [ADD TASK 4 LINK]

Skills and Learning

Data organization and quality checks

Analysis and evidence-based reporting

Python/data tools where actually used

GitHub documentation and presentation

Conclusion and Next Steps

Replace placeholders with real links.

Upload actual Task 1–4 deliverables or link repositories.

Publish a 3–5 minute LinkedIn walkthrough video.

Master repository: [ADD LINK]
